CASIT PARKING SOLUTION

Parking management system

Parking system equipment

Entry station

Standard :

- Professional mainboard
- Industrial thermal printer with 3000 tickets stock
- QRCode ticket issuing
- 7" TFT screen
- Loop detector integrated
- Lighting push button
- Heating element with thermostat
- Steel housing with an anti-corrosion treatment and a powder coating
- Housing in RAL 9004

Optional :

- Barcode/QRCode proximity scanner
- Mifare card reader
- Intercom SIP communication integrated
- IP pinhole camera
- Stand-alone functionality
- Ticketed or ticketless with LPR
- Housing in RAL color of your choice
- Notification via soft or sms
- License Plate Recognizing system
- Housing size for truck

Parking system equipment

Exit station

Standard :

- Professional mainboard
- Barcode/QRCode proximity scanner
- QRCode ticket issuing
- 7" TFT screen
- Loop detector integrated
- Heating element with thermostat
- Steel housing with an anti-corrosion treatment and a powder coating
- Housing in RAL 9004

Optional :

- Mifare card reader
- Intercom SIP communication integrated
- IP pinhole camera
- Stand-alone functionality
- Ticketed or ticketless with LPR
- Housing in RAL color of your choice
- License Plate Recognizing system
- Housing size for truck

Parking system equipment

Pay at Exit Station

Standard :

- Professional mainboard
- Barcode/QRCode proximity scanner
- QRCode ticket issuing
- Credit card processing payment
- Industrial thermal printer for receipt
- 7" TFT screen
- Loop detector integrated
- Heating element with thermostat
- Steel housing with an anti-corrosion treatment and a powder coating
- Housing in RAL 9004

Optional :

- Mifare card reader
- Intercom SIP communication integrated
- IP pinhole camera
- Stand-alone functionality
- Ticketed or ticketless with LPR
- Housing in RAL color of your choice
- Notification via soft or sms
- License Plate Recognizing system
- Housing size for truck

Parking system equipment

Paystation

Standard :

- Professional mainboard
- Barcode/QRCode proximity scanner
- QRCode ticket issuing
- Credit card processing payment
- Industrial thermal printer for receipt
- 15" TFT touchscreen, impact resistance IK06
- Heating element with thermostat
- Front door with 5 point locking enclosure
- Steel housing (3 mm) with an anti-corrosion treatment and a powder coating
- Housing in RAL 9004

Optional :

- Mifare card reader to cashier access
- Intercom SIP communication integrated
- IP pinhole camera
- Coin acceptance (6 currencies)
- Banknote reader acceptance
- Lockable overflow cassette for coins and banknotes
- Housing in RAL color of your choice
- Notification via soft

Parking system equipment

Cashless Paystation

Standard :

- Professional mainboard
- Barcode/QRCode proximity scanner
- QRCode ticket issuing
- Credit card processing payment
- Industrial thermal printer for receipt
- 10" TFT screen, impact resistance IK06
- Heating element with thermostat
- Front door with 3 point locking enclosure
- Steel housing (2 mm) with an anti-corrosion treatment and a powder coating
- Housing in RAL 9004

Optional :

- Intercom SIP communication integrated
- IP pinhole camera
- Housing in RAL color of your choice

Parking system equipment

Ticket generator/ticket recode station

Ticket generator station :

- Professional mainboard
- Thermal printer
- QRCode ticket issuing
- 3" TFT screen
- Push buton for printing
- Stand-alone device
- ABS housing

Ticket recode station :

- Professional mainboard
- Barcode/QRCode proximity scanner
- QRCode ticket issuing
- 3" TFT screen
- Ethernet interface
- ABS housing

Parking system equipment

Manual paystation

Standard :

- POS with Windows OS with 10" touchscreen
- Manual paystation software
- Desktop Barcode/QRCode proximity scanner
- QRCode ticket issuing

Optional :

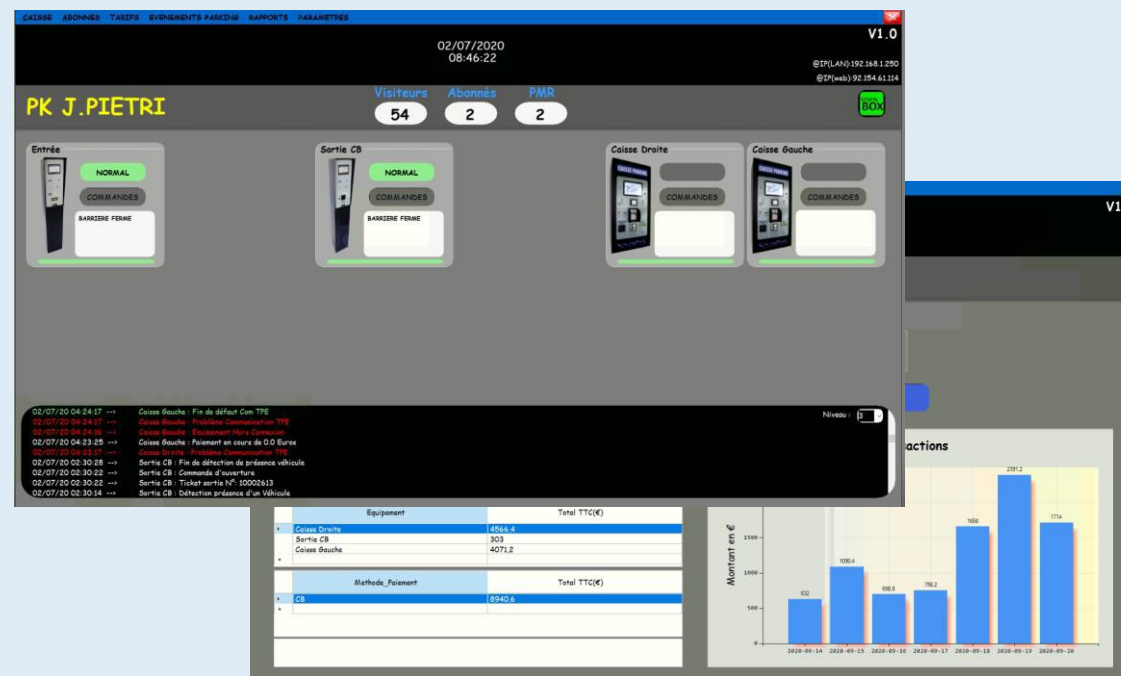

- Desktop thermal printer

Parking system equipment

Parking system software

- Parking management system
- Countless integration
- License Plate Recognition integrated
- Manual paystation function
- Subscribers management
- Events and alarms
- Reports
- Web-based

The screenshot displays the CASIT parking management software interface for the location 'PK J. PIETRI'. At the top, it shows the date '02/07/2020' and time '08:46:22'. The interface includes a navigation menu with options like 'CAISSE', 'ABONNES', 'TARIFS', 'EVENEMENTS', 'PARCHING', 'RAPPORTS', and 'PARAMETRES'. A 'BOX' icon is visible in the top right corner.

Key statistics are shown: 'Visiteurs' (54), 'Abonnés' (2), and 'PMB' (2). Below these are four panels representing different payment stations: 'Entrée', 'Sortie CB', 'Caisse Droite', and 'Caisse Gauche'. Each panel shows a 'NORMAL' status and a 'COMMANDES' button.

A log of events is visible at the bottom left, listing various actions such as 'Caisse Gauche / Fin de défaut Com TPE' and 'Caisse Gauche / Problème Communication TPE'.

At the bottom, there are two data visualization components: a table and a bar chart.

Equipement	Total TTC(€)
x Caisse Droite	1026,4
x Sortie CB	303
x Caisse Gauche	4073,2
Methode_Paiement	
Total TTC(€)	
x CB	8940,6

The bar chart shows the 'Montant en €' (Amount in €) for various dates from 2020-09-14 to 2020-09-20. The values are: 622, 908,6, 698,6, 762,2, 1008, 209,2, and 1734.

Parking system equipment

License Plate Recognizing

- Detection 99%
- High power LEDs
- Gigabit Ethernet interface
- Waterproof IP67
- Subscription management
- Fast and exit application
- Ticketless entrance and exit

Parking system equipment

Stand-alone solution

Advantage :

- Simple system
- No link between equipment
- No server or software
- Easy to install
- Limited functionalities

Segments :

- Small parking system
- Retail, shop, market
- Hotel
- Restaurant

Parking system equipment
